

A SIGN OF QUALITY PRODUCT

**CONSTANT CURRENT POWER SUPPLY
(0 - 4 Amp)
OMEGA TYPE CCP-30/4**

OMEGA TYPE CCP-30/4 is a high performance constant current power supply. The current regulation is IC controlled and hence result in the highest quality of performance. Matched Power Transistors are used to share the load current. The supply is protected against transient caused by the inductive load of the magnet.

APPLICATION

The constant current power supply can be used for small & medium size electromagnets, to explain ohm's law, for testing of electro machanical components like relays etc.
