

OMEGA TYPE AF-205 Meters are intended to be used for measurement of A.F. Voltages and Currents. These meters are robust, small in size and have low forward resistance and very low capacitance. These will be very useful in laboratory and radio workshop. These are panel mounting moving coil meters fitted in stands with dial size 65mm. These meters are available in different ranges of Voltages and Currents which are given below.

A.F. Milliammeters		A.F. Voltmeters	
OMEGA TYPE NO.	RANGE	OMEGA TYPE NO.	RANGE
